6. Reviewed the various Central Security bills in general and S. 2778 by Dirksen in particular. Pointed out that some 33 agencies have been asked for reports on the Dirksen bill and that we had contacted the Bureau of the Budget to determine their general views. They indicated it was much too early until they began to get some of the reports in. However, we will keep in contact on this one since undoubtedly there will be hearings later on. I pointed out that Agency employees are not covered under the Central Security Office concept but that undoubtedly we would want to use additional language to clearly exempt the Agency from standard requirements.

7. Advised that H. R. 6157 passed the House on 5 February. This bill has the same general purpose as S. 1084 which passed the Senate last year. The main difference is that the Senate bill offers payroll deductions to banks and savings and loan associations as well as credit unions whereas the House bill will only allow deductions for credit unions. I indicated that our computer people have already been alerted since in one form or another there undoubtedly will be a conference which will approve the bill.
